VSbulletin COVID-19 Ongoing Travel Disruption - 19 Aug

It continues to be a dynamic time for international travel with ongoing travel restrictions to and from many of the countries we operate to.

As a result of ongoing travel restrictions from the UK to the US, we have pushed back the restart of some transatlantic flights, including our Orlando services from London Heathrow and Manchester and Las Vegas services from Heathrow.

We're sorry for the inconvenience caused to our customers and look forward to returning to these destinations as soon as possible. World-leading vaccination programmes in both countries means the transatlantic corridor can safely open in both directions and we continue to urge the UK Government to go further and move the US to the UK's 'Green list' and for the

Biden administration to repeal the 212F proclamation, which currently prevents UK visitors from entering the US.

As a result of the fast-moving travel environment, we continue to make schedule changes which will affect our Flying Programme for the coming weeks.

- We are reducing frequencies on several routes, however to ensure impacted passengers can continue with their travel plans, they will be reprotected to the most suitable alternative departure.
- Where a flight is cancelled, and due to limited operations to these destinations, there will be no re-protection option available, these sectors will appear as UN.

Bookings affected by these changes will be updated in your GDS on Saturday 21 August 2021. Our most up to date flexibility policy can be found [here](#)

Cancellations
Effective until & including

USA	LHR-MCO	22 Sep
	MAN-MCO	22 Sep

LHR-LAS	7 Sep
LHR-SFO	9 Sep
MAN-ATL	7 Sep
