Subject – Gulf Air update on Flights out of Pakistan

Dear Travel Trade Partner,

All Gulf Air passengers are advised to arrive at their departure airports in Pakistan four hours prior to the scheduled time of departure. Passengers are required to check the validity of their passport, information on security, health and immigration with the entry requirements of final destination before travel. Please ensure that all documents are completed and correct to avoid any delay time at check-in process.

Please note that inserting active contact details in the booking is highly recommended to enable the passengers to receive messages from Gulf Air in the event of any unforeseen flight disruption, schedule change or flight cancellation etc.
