

Dear Trade Partner,

We are delighted to announce that we will be operating Vaccinated Travel Lane (VTL) flights to Singapore from 7 December 2021.

This will mean if guests are fully vaccinated at least two weeks before arrival and travelling from a [VTL country](#), they can enter Singapore quarantine-free for non-essential travel or tourism purposes.

Important note regarding guests booked to travel to Singapore from 7 December 2021 onwards

Any booked guests must fulfil the VTL criteria to travel and will be unable to travel if not.

To join these flights they must be fully vaccinated and have been in or transited through only [VTL countries](#) or Category I countries (Hong Kong, Macao, Mainland China, Taiwan) in the past 14 days.
