

## Kuwait Updated Restrictions

Dear Travel Trade Partner,

The following measures are applicable to passengers travelling to Kuwait:

1. Effective 26<sup>th</sup> December 2021:

- a. All pax traveling to KWI must hold a PCR test conducted 48hrs before travel.
- b. All pax shall self isolate for 10 days, isolation can be ended if a PCR test has been conducted 72 hrs after arrival and the result is negative.
- c. Pax immunized in KWI must provide proof of immunization upon arrival via (immune or Kuwait mobile app)
- d. Pax immunized outside KWI must present the vaccination certificate which include the following:
  - Name matching the travel passport
  - Type of vaccine
  - Date of doses received
  - Name of vaccine agency
  - QR code, otherwise vaccine certificate must be uploaded through MOH website for authentication.
