

Requirements for all passengers arriving in Dubai

Effective 26 February 2022, passengers travelling to Dubai from all countries (GCC included) must fulfil one of the below requirements

1. Present a valid vaccination certificate(s) reflecting that the passenger is fully vaccinated with a vaccine approved by the WHO or the United Arab Emirates (UAE), and includes a QR code
2. Present a valid negative COVID-19 PCR test certificate issued within 48 hours from the time of sample collection and issued by an approved health service provider with a QR code
3. Present a valid medical certificate with a QR code issued by the relevant authorities that the passenger has recovered from COVID-19 within 1 month from the date of recovery to the date of arrival

If requested, passengers must undergo a PCR test on arrival in Dubai and self quarantine until they receive a negative result. Passengers who test positive for COVID-19 must follow the guidelines issued by the Dubai Health Authority.

Note that printed or digital PCR test certificates or vaccination certificates are accepted in English or Arabic and must include a QR code. SMS certificates are not accepted. COVID-19 PCR test or vaccination certificates in other languages are acceptable if they can be validated at the departure point. **COVID-19 vaccination certificates without a QR code can be accepted for travel to Dubai as long as the vaccination certificate is issued by test centres/organisations recognised/approved by the national health authorities of the country.**

For Transit Passenger(s), the rules and conditions for entry at the final destination will apply.
