CANADA - published 02.03.2022

1. Passengers and airline crew must have a COVID-19 vaccination certificate uploaded in ArriveCAN showing that they were fully vaccinated at least 15 days (day of vaccination + 14 days) before arrival. The certificate must be in English, French or accompanied by a certified English or French translation. Vaccines accepted are: AstraZeneca (Covishield), AstraZeneca (SK Bioscience), AstraZeneca (Vaxzevria), Covaxin, Covovax, Janssen,

Moderna (Spikevax), Nuvaxovid (Novavax), Pfizer-BioNTech (Comirnaty), Sinopharm or Sinovac. A combination of vaccines is accepted.

- This does not apply to:

- nationals of Canada;
- permanent residents of Canada;
- persons registered under Canada's Indian Act with the Certificate of Indian Status (CIS) or the Secure Certificate of Indian Status (SCIS);
- passengers with an authorization from the Public Health Agency of Canada (PHAC) for compassionate entry;
- passengers with a Canadian Refugee Travel Document or a Single Journey Document for Resettlement to Canada;
- passengers younger than 12 years traveling with their vaccinated parents/guardians;
- passengers with an application for permanent residence. They must have a written notice issued under the Immigration and Refugee Protection Act.

More exemptions can be found at <https://tinyurl.com/s4tbr8>

2. Passengers must have:

- a negative molecular COVID-19 test taken outside of Canada at most 72 hours before departure of the last direct flight to Canada. Tests accepted are: CRISPR, Ct, detection of the E gene, detection of the N gene, detection of Orf1a/b, detection of the RdRp gene, detection of the S gene, ddPCR, isothermal amplification, LamPORE, NAAT, NAT, NGS, PCR, qPCR, RNA, RT-LAMP, RT-PCR, sequencing and WGS; or
- a negative COVID-19 antigen test taken at most one day before departure of the last direct flight to Canada.

More details can be found at <https://tinyurl.com/uuf5nntc>

- This does not apply to:

- passengers younger than 5 years;
- passengers with a positive molecular COVID-19 test taken at least 10 days and at most 180 days before departure of the last direct flight to Canada. Tests accepted are: CRISPR, Ct, detection of the E gene, detection of the N gene, detection of Orf1a/b, detection of the RdRp gene, detection of the S gene, ddPCR, isothermal amplification, LamPORE, NAAT, NAT, NGS, PCR, qPCR, RNA, RT-LAMP, RT-PCR, sequencing and WGS;
- more exemption can be found via <https://travel.gc.ca/travel-covid/travel-restrictions/exemptions>

3. Passengers and airline crew must submit their information electronically, at most 72 hours before arrival, through the ArriveCAN app or the website <https://www.canada.ca/en/public-health/services/diseases/coronavirus-disease-covid-19/arrivecan.html>. Passengers must present an ArriveCAN receipt before boarding.

4. Passenger could be subject to COVID-19 molecular test upon arrival. Details can be found at <https://travel.gc.ca/travel-covid/travel-restrictions/covid-vaccinated-travellers-entering-canada> for vaccinated passengers and <https://travel.gc.ca/travel-covid/travel-restrictions/exemptions#unvaccinated> for unvaccinated passengers.

6. Passengers could be subject to quarantine for 14 days. Details can be found at <https://travel.gc.ca/travel-covid/travel-restrictions/flying-canada-checklist>

- This does not apply to:

- passengers younger than 12 years traveling with their fully vaccinated parents/guardians;
- passengers with a COVID-19 vaccination certificate showing that they were fully vaccinated at least 15 days (day of vaccination + 14 days) before arrival. The certificate must be in English or French or be accompanied by a certified translation to English or French.
- Vaccines accepted are: AstraZeneca (Covishield), AstraZeneca (SK Bioscience), AstraZeneca (Vaxzevria), Covaxin, Covovax, Janssen, Moderna (Spikevax), Nuvaxovid (Novavax), Pfizer-BioNTech (Comirnaty), Sinopharm or Sinovac. A combination of vaccines is accepted.

- More details can be found at <https://travel.gc.ca/travel-covid/travel-restrictions/covid-vaccinated-travellers-entering-canada>

THE MAINLAND OF CHINA - published 28.01.2022

1. Entry by foreign nationals holding a visa is suspended.

- This does not apply to:

- foreign nationals with a visa issued after 28 March 2020 with the place of issue outside the Mainland of China. They must not arrive from Bangladesh, Belgium, France, India, Italy, Philippines, Russian Fed. and United Kingdom;

- foreign nationals with a diplomatic, service, courtesy or C visa;

- foreign nationals with a visa issued after 3 November 2020;

- passengers with an invitation letter issued by the Beijing Organising Committee for the 2022 Olympic and Paralympic Winter Games.

2. Entry by foreign nationals with a residence permit is suspended.

- This does not apply to:

- foreign nationals with a permanent residence permit;

- foreign nationals with a residence permit with the purpose 'work', 'personal matters' or 'reunion'. They must not arrive from Bangladesh, Belgium, France, India, Italy, Philippines, Russian Fed. and United Kingdom.

3. Entry by foreign nationals with an APEC Business Travel Card is suspended.

4. Port visas, 24/72/144-hour visa-free transit policy, Hainan 30-day visa-free policy, 15-day visa-free policy specified for foreign cruise-group-tour through Shanghai Port, Guangdong 144-hour visa-free policy specified for foreign tour groups from Hong Kong or Macao SAR, and Guangxi 15-day visa-free policy specified for foreign tour groups of ASEAN countries are suspended.

5. Foreign nationals coming to the mainland of China for necessary economic, trade, scientific or technological activities or out of emergency humanitarian needs may apply for visas at Chinese embassies or consulates.

6. Passengers are subject to medical screening and quarantine for 14 days at the first point of entry.

7. Airline crew of foreign airlines:

- are not required to undergo nucleic acid test if they have a short stay after landing then depart immediately, and do not leave apron during the transition; OR

- shall receive nucleic acid test in the first port of entry if they need to enter the country to rest or continue to operate domestic routes. The test results will be confirmed by the local government in accordance with the requirements of epidemic prevention management. Only if the test results are negative, crews can continue the operations; OR

- are allowed to return to their home country for isolation treatment when agreed by the local joint control mechanism, if they are symptomatic, in close contact with infected persons or tested positive. Airlines and crews shall make all commitments to bear their responsibilities and also carry out strict protections.

8. Passengers must complete an "Exit/Entry Health Declaration Form" and present a QR code before departure. The form can be obtained at <http://health.customsapp.com/>.

9. Nationals of China (People's Rep.) must have a green QR code with an 'HS' mark. The code can be obtained from the WeChat App 'Fang Yi Jian Kang Ma Guo Ji Ban' by uploading a negative Coronavirus (COVID-19) nucleic acid test result issued at most 2 days before departure and a negative IgM antibody test result issued at most 2 days before departure. A positive IgM antibody test result could be accepted with a COVID-19 vaccination certificate. More details can be found at the website of the respective Chinese embassy.

Passengers not arriving directly in China (People's Rep.) must repeat both tests in the transit countries and obtain a new green QR code with an 'HS' mark in each transit country.

- This does not apply to:

- nationals of China (People's Rep.) arriving from Chinese Taipei, Hong Kong SAR, China, Macao SAR, China, United Arab Emirates or USA;
- passengers with an invitation letter issued by the Beijing Organising Committee for the 2022 Olympic and Paralympic Winter Games;
- passengers with a Pre-Valid card (PVC) issued by the Beijing Organising Committee for the 2022 Olympic and Paralympic Winter Games.

10. Passengers must have a green QR code with an 'HDC' mark. The code can be obtained at <https://hrhk.cs.mfa.gov.cn/H5/> with a negative Coronavirus (COVID-19) nucleic acid test result issued at most 2 days before departure and a negative IgM antibody test result issued at most 2 days before departure. A positive IgM antibody test result could be accepted with a COVID-19 vaccination certificate. More details can be found at the website of the respective Chinese embassy. Passengers not arriving directly in China (People's Rep.) must repeat both tests in the transit countries and obtain a new green QR code with an 'HDC' mark in each transit country.

- This does not apply to:
- nationals of China (People's Rep.);
- passengers arriving from Chinese Taipei, Hong Kong SAR, China, Macao SAR, China, United Arab Emirates or USA;
- passengers with an invitation letter issued by the Beijing Organising Committee for the 2022 Olympic and Paralympic Winter Games;
- passengers with a Pre-Valid card (PVC) issued by the Beijing Organising Committee for the 2022 Olympic and Paralympic Winter Games.

11. Nationals of China (People's Rep.) arriving directly from the USA must have a green QR code with an 'HS' mark. The code can be obtained from the WeChat App 'Fang Yi Jian Kang Ma Guo Ji Ban' by uploading a negative Coronavirus (COVID-19) nucleic acid test result issued at most 2 days before departure and a negative IgM antibody test result issued at most 2 days before departure. A positive IgM antibody test result could be accepted with a COVID-19 vaccination certificate. Passengers must also have a negative COVID-19 nucleic acid test taken 7 days before departure, and complete a personal health monitoring form. More details can be found at

http://www.china-embassy.org/eng/lsfw/sjc1/zytz_120351/202201/t20220106_10479315.htm

- This does not apply to:
- passengers younger than 3 years;
- passengers with an invitation letter issued by the Beijing Organising Committee for the 2022 Olympic and Paralympic Winter Games;
- passengers with a Pre-Valid card (PVC) issued by the Beijing Organising Committee for the 2022 Olympic and Paralympic Winter Games.

12. Passengers arriving directly from the USA must have a green QR code with an 'HDC' mark. The code can be obtained at <https://hrhk.cs.mfa.gov.cn/H5/> with a negative Coronavirus (COVID-19) nucleic acid test result issued at most 2 days before departure and a negative IgM antibody test result issued at most 2 days before departure. A positive IgM antibody test result could be accepted with a COVID-19 vaccination certificate. Passengers must also have a negative COVID-19 nucleic acid test taken 7 days before departure, and complete a personal health monitoring form. More details can be found at

http://www.china-embassy.org/eng/lsfw/sjc1/zytz_120351/202201/t20220106_10479315.htm

- This does not apply to:
- nationals of China (People's Rep.);
- passengers younger than 3 years;
- passengers with an invitation letter issued by the Beijing Organising Committee for the 2022 Olympic and Paralympic Winter Games;
- passengers with a Pre-Valid card (PVC) issued by the Beijing Organising Committee for the 2022 Olympic and Paralympic Winter Games.

13. Nationals of China (People's Rep.) arriving directly from Canada must have a green QR code with an 'HS' mark. The code can be obtained from the WeChat App 'Fang Yi Jian Kang Ma Guo Ji Ban' by uploading a negative Coronavirus (COVID-19) nucleic acid test result issued at most 2 days before departure and a negative IgM antibody test result issued at most 2 days before departure. A positive IgM antibody test result could be accepted with a COVID-19 vaccination certificate. Passengers not arriving directly in China (People's Rep.) must repeat both tests in the transit countries and obtain a new green QR code with an 'HS' mark in each transit country. Passengers must also have a negative COVID-19 nucleic acid test taken 7 days before departure, and complete a personal health monitoring form. More details can be found at http://ca.china-embassy.org/eng/lsyw/202201/t20220104_10478568.htm

- This does not apply to:

- passengers younger than 3 years;
- passengers with an invitation letter issued by the Beijing Organising Committee for the 2022 Olympic and Paralympic Winter Games;
- passengers with a Pre-Valid card (PVC) issued by the Beijing Organising Committee for the 2022 Olympic and Paralympic Winter Games.

14. Passengers arriving directly from Canada must have a green QR code with an 'HDC' mark. The code can be obtained at <https://hrhk.cs.mfa.gov.cn/H5/> with a negative Coronavirus (COVID-19) nucleic acid test result issued at most 2 days before departure and a negative IgM antibody test result issued at most 2 days before departure. A positive IgM antibody test result could be accepted with a COVID-19 vaccination certificate. Passengers not arriving directly in China (People's Rep.) must repeat both tests in the transit countries and obtain a new green QR code with an 'HDC' mark in each transit country. Passengers must also have a negative COVID-19 nucleic acid test taken 7 days before departure, and complete a personal health monitoring form. More details can be found at http://ca.china-embassy.org/eng/lsyw/202201/t20220104_10478568.htm

- passengers with a Pre-Valid card (PVC) issued by the Beijing Organising Committee for the 2022 Olympic and Paralympic Winter Games.

15. Nationals of China (People's Rep.) arriving directly from United Arab Emirates must have a green QR code with an 'HS' mark. The code can be obtained from the WeChat App 'Fang Yi Jian Kang Ma Guo Ji Ban' by uploading:

- a negative Coronavirus (COVID-19) nucleic acid test result issued 14 days before departure and a negative IgM antibody test result issued 14 days before departure; and
- a negative Coronavirus (COVID-19) nucleic acid test result issued at most 2 days before departure and a negative IgM antibody test result issued at most 2 days before departure. Details can be found at <http://ae.chineseembassy.org/eng/lsyw/t1872245.htm> .

- This does not apply to:

- passengers with an invitation letter issued by the Beijing Organising Committee for the 2022 Olympic and Paralympic Winter Games;
- passengers with a Pre-Valid card (PVC) issued by the Beijing Organising Committee for the 2022 Olympic and Paralympic Winter Games.

16. Passengers arriving directly from United Arab Emirates must have a green QR code with an 'HDC' mark. The code can be obtained at <https://hrhk.cs.mfa.gov.cn/H5/> with:

- a negative Coronavirus (COVID-19) nucleic acid test result issued 14 days before departure and a negative IgM antibody test result issued 14 days before departure; and
- a negative Coronavirus (COVID-19) nucleic acid test result issued at most 2 days before departure and a negative IgM antibody test result issued at most 2 days before departure. Details can be found

at <http://ae.chineseembassy.org/eng/lsyw/t1872245.htm> .

- This does not apply to:
- nationals of China (People's Rep.);
- passengers with an invitation letter issued by the Beijing Organising Committee for the 2022 Olympic and Paralympic Winter Games;
- passengers with a Pre-Valid card (PVC) issued by the Beijing Organising Committee for the 2022 Olympic and Paralympic Winter Games.

17. Passengers arriving from Chinese Taipei must have a medical certificate with a negative Coronavirus (COVID-19) PCR test result issued at most 3 days before departure.

18. Passengers entering Beijing (PEK) from Hong Kong SAR, China must have a medical certificate with a negative Coronavirus (COVID-19) PCR test result issued at most 7 days before departure.

19. Passengers arriving from Macao SAR, China must have a medical certificate with a negative Coronavirus (COVID-19) PCR test result issued at most 7 days before departure.

The below items are regarding the 2022 Olympic and Paralympic Winter Games:

20. Passengers with an invitation letter issued by the Beijing Organising Committee for the 2022 Olympic and Paralympic Winter Games are allowed to enter with a visa.

21. Passengers with a Pre-Valid card (PVC) issued by the Beijing Organising Committee for the 2022 Olympic and Paralympic Winter Games are allowed to enter without a visa.

22. Passengers with an invitation letter issued by the Beijing Organizing Committee for the 2022 Olympic and Paralympic Winter Games must have a green QR code with an 'HS' mark (for Chinese nationals) or 'HDC' mark (for foreign nationals). The QR codes are valid for 72 hours after issuance, and they must be marked with 'Beijing Organising Committee for the 2022 Olympic and Paralympic Winter Games'. The QR code is considered valid at both origin airport and transit airport as long as it is within the validity at the time of boarding the plane to Beijing.

23. Passengers with a Pre-Valid card (PVC) issued by the Beijing Organising Committee for the 2022 Olympic and Paralympic Winter Games must have a green QR code with an 'HS' mark (for Chinese nationals) or 'HDC' mark (for foreign nationals). The QR codes are valid for 72 hours after issuance, and they must be marked with 'Beijing Organising Committee for the 2022 Olympic and Paralympic Winter Games'. The QR code is considered valid at both origin airport and transit airport as long as it is within the validity at the time of boarding the plane to Beijing.

24. The Olympic Identity and Accreditation Card (OIAC) and the Paralympic Identity and Accreditation Card (PIAC):

- are valid from 4 January 2022 until 13 April 2022; and
- are valid for multiple entries; and
- must be accompanied with a passport valid until at least 13 May 2022.

EGYPT - published 01.02.2022

Passengers entering or transiting through Egypt must have:

- a printed negative COVID-19 PCR or rapid antigen test taken at most 72 hours before arrival. The test must be based on a nasal or oral swab. The test result must have a stamp of the issuing laboratory or a QR code. A COVID-19 RT-PCR test used to depart Egypt becomes invalid for re-entry in all cases; or
- a COVID-19 vaccination certificate showing that they were fully vaccinated with AstraZeneca (Vaxzevria), Janssen, Moderna (Spikevax), Pfizer-BioNTech (Comirnaty), Sinopharm, Sinovac or Sputnik V at least 14 days before departure. The certificate must be in Arabic, French or English and have a QR code; or
- a COVID-19 vaccination certificate approved and certified by the Egyptian Embassy in the country of departure showing that they were fully vaccinated with AstraZeneca (Vaxzevria), Janssen, Moderna (Spikevax), Pfizer-BioNTech (Comirnaty), Sinopharm, Sinovac or Sputnik V at least 14 days before departure.
- This does not apply to passengers younger than 12 years.

FRANCE - published 07.03.2022

1. Passengers must complete a Digital Passenger Locator Form found at <https://app.euplf.eu/>

- This does not apply to passengers who have started their journey in Russian Fed. or Ukraine.

2. Passengers must have:

- a negative COVID-19 PCR test taken at most 72 hours before departure from the first embarkation point; or
- a negative COVID-19 antigen taken at most 48 hours before departure from the first embarkation point; or
- a COVID-19 vaccination certificate showing that:
 - they were vaccinated with Janssen at least 28 days and at most 270 days before arrival; or
 - they were fully vaccinated with AstraZeneca (SK Bioscience), AstraZeneca (Vaxzevria), Covishield, Fiocruz, Moderna (Spikevax), Nuvaxovid (Novavax), Pfizer-BioNTech (Comirnaty) or R-Covi at least 7 days and at most 270 days before arrival; or
 - they were fully vaccinated with AstraZeneca (SK Bioscience), AstraZeneca (Vaxzevria), Covishield, Fiocruz, Janssen, Moderna (Spikevax), Nuvaxovid (Novavax), Pfizer-BioNTech (Comirnaty) or R-Covi and received a booster dose of Moderna (Spikevax) or Pfizer-BioNTech (Comirnaty); or
 - they were fully vaccinated with Covaxin, Sinopharm or Sinovac and received a dose of Moderna (Spikevax) or Pfizer-BioNTech (Comirnaty) at least 7 days before arrival;
- a COVID-19 recovery certificate issued at least 11 days and at most 6 months before departure from the first embarkation point if arriving from Andorra, Angola, Argentina, Austria, Bahamas, Bahrain, Bangladesh, Belgium, Benin, Bolivia, Botswana, Bulgaria, Cambodia, Canada, Cape Verde, Chad, Chinese Taipei, Colombia, Comoros, Cote d'Ivoire, Croatia, Cuba, Cyprus, Denmark, Djibouti, Dominican Rep., Ecuador, Equatorial Guinea, Estonia, Eswatini, Fiji, Finland, Gabon, Germany, Ghana, Greece, Guinea, Guinea-Bissau, Honduras, Hong Kong (SAR China), Hungary, Iceland, India, Indonesia, Iraq, Ireland (Rep.), Italy, Jamaica, Japan, Kazakhstan, Kenya, Korea (Rep.), Kuwait, Lao People's Dem. Rep., Latvia, Lesotho, Liechtenstein, Lithuania, Luxembourg, Malta, Mauritania, Mauritius, Monaco, Morocco, Namibia, Nepal, Netherlands, New Zealand, Nicaragua, Norway, Oman, Pakistan, Paraguay, Peru, Philippines, Poland, Portugal, Qatar, Romania, Rwanda, Samoa, San Marino, Saudi Arabia, Senegal, Slovakia, Slovenia, South Africa, Spain, Sri Lanka, Sweden, Switzerland, Tanzania, Togo, Uganda, United Arab Emirates, Vanuatu, Vatican City (Holy See), Venezuela, Viet Nam, Zambia and Zimbabwe.
- This does not apply to:
 - passengers younger than 12 years;
 - passengers younger than 18 years traveling with a fully vaccinated adult.

- This does not apply to passengers who have started their journey in Russian Fed. or Ukraine.

3. Passengers entering or transiting through France from a country other than Andorra, Angola, Argentina, Austria, Bahamas, Bahrain, Bangladesh, Belgium, Benin, Bolivia, Botswana, Bulgaria, Cambodia, Canada, Cape Verde, Chad, Chinese Taipei, Colombia, Comoros, Cote d'Ivoire, Croatia, Cuba, Cyprus, Denmark, Djibouti, Dominican Rep., Ecuador, Equatorial Guinea, Estonia, Eswatini, Fiji, Finland, Gabon, Germany, Ghana, Greece, Guinea, Guinea-Bissau, Honduras, Hong Kong (SAR China), Hungary, Iceland, India, Indonesia, Iraq, Ireland (Rep.), Italy, Jamaica, Japan, Kazakhstan, Kenya, Korea (Rep.), Kuwait, Lao People's Dem. Rep., Latvia, Lesotho, Liechtenstein, Lithuania, Luxembourg, Malta, Mauritania, Mauritius, Monaco, Morocco, Namibia, Nepal, Netherlands, New Zealand, Nicaragua, Norway, Oman, Pakistan, Paraguay, Peru, Philippines, Poland, Portugal, Qatar, Romania, Rwanda, Samoa, San Marino, Saudi Arabia, Senegal, Slovakia, Slovenia, South Africa, Spain, Sri Lanka, Sweden, Switzerland, Tanzania, Togo, Uganda, United Arab Emirates, Vanuatu, Vatican City (Holy See), Venezuela, Viet Nam, Zambia and Zimbabwe must have a completed sworn statement obtained at <https://www.interieur.gouv.fr/covid-19-international-travel>

- This does not apply to passengers younger than 12 years.

4. Passengers entering or transiting through France from a country other than Andorra, Angola, Argentina, Austria, Bahamas, Bahrain, Bangladesh, Belgium, Benin, Bolivia, Botswana, Bulgaria, Cambodia, Canada, Cape Verde, Chad, Chinese Taipei, Colombia, Comoros, Cote d'Ivoire, Croatia, Cuba, Cyprus, Denmark, Djibouti, Dominican Rep., Ecuador, Equatorial Guinea, Estonia, Eswatini, Fiji, Finland, Gabon, Germany, Ghana, Greece, Guinea, Guinea-Bissau, Honduras, Hong Kong (SAR China), Hungary, Iceland, India, Indonesia, Iraq, Ireland (Rep.), Italy, Jamaica, Japan, Kazakhstan, Kenya, Korea (Rep.), Kuwait, Lao People's Dem. Rep., Latvia, Lesotho, Liechtenstein, Lithuania, Luxembourg, Malta, Mauritania, Mauritius, Monaco, Morocco, Namibia, Nepal, Netherlands, New Zealand, Nicaragua, Norway, Oman, Pakistan, Paraguay, Peru, Philippines, Poland, Portugal, Qatar, Romania, Rwanda, Samoa, San Marino, Saudi Arabia, Senegal, Slovakia, Slovenia, South Africa, Spain, Sri

Lanka, Sweden, Switzerland, Tanzania, Togo, Uganda, United Arab Emirates, Vanuatu, Vatican City (Holy See), Venezuela, Viet Nam, Zambia and Zimbabwe must present a completed Travel Certificate before boarding and to immigration upon arrival obtained at <https://www.interieur.gouv.fr/covid-19-international-travel>

- This does not apply to:

- **passengers who have started their journey in Russian Fed. or Ukraine;**

- passengers with a COVID-19 vaccination certificate showing that:

- they were vaccinated with Janssen at least 28 days and at most 270 days before arrival; or

- they were fully vaccinated with AstraZeneca (SK Bioscience), AstraZeneca (Vaxzevria), Covishield, Fiocruz, Moderna (Spikevax), Nuvaxovid (Novavax), Pfizer-BioNTech (Comirnaty) or R-Covi at least 7 days and at most 270 days before arrival; or

- they were fully vaccinated with AstraZeneca (SK Bioscience), AstraZeneca (Vaxzevria), Covishield, Fiocruz, Janssen, Moderna (Spikevax), Nuvaxovid (Novavax), Pfizer-BioNTech (Comirnaty) or R-Covi and received a booster dose of Moderna (Spikevax) or Pfizer-BioNTech (Comirnaty); or

- they were fully vaccinated with Covaxin, Sinopharm or Sinovac and received a dose of Moderna (Spikevax) or Pfizer-BioNTech (Comirnaty) at least 7 days before arrival;

- passengers younger than 12 years;

- passengers younger than 18 years traveling with a fully vaccinated adult.

5. Passengers could be subject to a COVID-19 test upon arrival.

- This does not apply to:

- passengers arriving from Andorra, Angola, Argentina, Austria, Bahamas, Bahrain, Bangladesh, Belgium, Benin, Bolivia, Botswana, Bulgaria, Cambodia, Canada, Cape Verde, Chad, Chinese Taipei, Colombia, Comoros, Cote d'Ivoire, Croatia, Cuba, Cyprus, Denmark, Djibouti, Dominican Rep., Ecuador, Equatorial Guinea, Estonia, Eswatini, Fiji, Finland, Gabon, Germany, Ghana, Greece, Guinea, Guinea-Bissau, Honduras, Hong Kong (SAR China), Hungary, Iceland, India, Indonesia, Iraq, Ireland (Rep.), Italy, Jamaica, Japan, Kazakhstan, Kenya, Korea (Rep.), Kuwait, Lao People's Dem. Rep., Latvia, Lesotho, Liechtenstein, Lithuania, Luxembourg, Malta, Mauritania, Mauritius, Monaco, Morocco, Namibia, Nepal, Netherlands, New Zealand, Nicaragua, Norway, Oman, Pakistan, Paraguay, Peru, Philippines, Poland, Portugal, Qatar, Romania, Rwanda, Samoa, San Marino, Saudi Arabia, Senegal, Slovakia, Slovenia, South Africa, Spain, Sri Lanka, Sweden, Switzerland, Tanzania, Togo, Uganda, United Arab Emirates, Vanuatu, Vatican City (Holy See), Venezuela, Viet Nam, Zambia and Zimbabwe;

- passengers younger than 12 years.

- passengers with a medical certificate of contraindication who cannot be vaccinated.

3. Nationals of the Philippines without a COVID-19 vaccination certificate showing that they were fully vaccinated, are subject to quarantine for 14 days.

- This does not apply to passengers younger than 12 years accompanied by their fully vaccinated parent or guardian.

4. Passengers must present the 'One Health Pass Registration' at time of check-in from the first international leg. The pass can be found at <https://onehealthpass.com.ph/e-HDC/OHP-Registration/>. The registration will generate a QR which must be presented upon arrival.

- This does not apply to passengers with a diplomatic passport traveling on duty and their family members.

5. Passengers must have travel insurance to cover COVID-19 expenses, with a minimum coverage of USD 35,000.

- This does not apply to:

- nationals of the Philippines;

- passengers with a visa issued by the Philippines.

6. Passengers must install the app 'TRAZE' on their personal device before departure.

7. Visa exemptions have been reinstated.

8. Suspension of all visa on arrival facilities.

QATAR - published 27.02.2022 (Effective 28th Feb 2022)

Red list countries <https://covid19.moph.gov.qa/EN/Documents/PDFs/RED-LISTED-COUNTRIES.pdf>

Immunity Status:

• **Fully Vaccinated:** Anyone who received any of the following COVID-19 vaccine approved/recognized by the Ministry of Public Health within its immunity validity period:

o Valid for nine (9) months from fourteen (14) days after 2nd dose or booster dose vaccination of Pfizer, Moderna, Astra Zenica COVID-19 vaccines.

o Valid for nine (9) months from 2 weeks after the 1st dose of Jansen & Jansen COVID-19 vaccine; or valid for nine (9) months from seven (7) days of receiving the booster dose of Jansen & Jansen COVID-19 vaccine.

o Valid for six (6) months from fourteen (14) days after the 2nd dose or booster dose of conditionally approved COVID-19 vaccines, where a *positive* Serology on Antibody Test lab result is required and is valid for 30 days from testing; If the traveler is unable to take a Serology Antibody test in the country of origin or if the Antibody test result appear negative, the traveler must undergo relevant quarantine for 5 days; Those who received booster dose using MOPH approved vaccines immune status is extended to nine (9) months from seven (7) days after the booster dose and Serology Antibody test is no longer required.

• **Recovered:** Anyone who had a medically confirmed COVID-19 infection acquired either locally or overseas is considered to have immune status valid for nine (9) months from the date of the infection. There should be an official and verifiable laboratory test result as evidence of the past infection.

• **Unvaccinated / Non-immune:** Anyone who does not meet any of the above criteria.

List of Approved and Conditionally Approved Vaccines by the Ministry of Public Health:

Approved Vaccines	Conditionally Approved vaccines*
• Pfizer / BioNTech (Comirnaty)	• Sinopharm

• Moderna (SpikeVax)	• Sinovac
• AstraZeneca (Covishield / Oxford / Vaxzevria)	• Sputnik V
• Jansen / Johnson & Johnson (only one dose)	• Covaxin

Travelers who are vaccinated outside Qatar are required to submit the original vaccine certificate and any other supporting documents –in Arabic or English language– as a proof that they have obtained the vaccine and should at least include the following information:

- o The name of the traveler must be identical to that on the passport.
- o Doses and dates of vaccine given (one dose for Jansen vaccine and two doses for other vaccines).
- o Type/name of vaccine.
- o The serial number of the vaccine batch and QR code (if available).

General policy:

1. Based on COVID-19 epidemiology in different countries and their local health risk indicators, Qatar has developed specific health and safety measures for travelers coming to Qatar – *Standard Health Measures and Red Health Measures*.
2. Citizens and residents are free to travel abroad at any time provided that the Travel and Return Policy is adhered to when returning to Qatar.
3. The Ministry of Public Health advises citizens and residents to look up and comply with COVID-19 health measures currently in place in the destination country.
4. Travelers are responsible for keeping up to date with changes to the Travel and Return Policy through official sources before planning to travel to Qatar.
5. Travelers must comply with Qatar's COVID-19 procedures at all time to reduce the spread of COVID-19.
6. Travelers who are required to have a PCR lab result before traveling to Qatar must have it at a medical center authorized by the health authorities in the country of departure. A negative test result is required and is **considered valid for 48 hours** from departure time at the country of departure. (Please see the pre-travel test rules for detailed guidance.)
7. Unvaccinated children **below the age of 12 years** travelling with fully vaccinated or recovered parent/s will follow the same rules that apply to their parent/s and are not required to have a pre-travel PCR test but only post-arrival test (Rapid Antigen Test) at the following locations:
 - a. Citizens and Residents: at any public/private clinic within 24 hours of arrival in Qatar but must sign an Undertaking form.
 - b. GCC Citizens (non-resident) and Visitors: if parent/s are exempted from quarantine, testing for children will be at the port of entry (airport, land, sea) upon arrival in Qatar; if parent/s are subject to hotel quarantine, testing will be at the quarantine hotel.
8. Non-residents of Qatar must register via the pre-travel registration system for people entering the State of Qatar on www.ehteraz.gov.qa website and upload all relevant official documents, where applicable, such as vaccination certificates, evidence of previous COVID-19 infection, serology antibody test results (for conditional vaccines), and PCR lab result at least 3 days before arrival. Although

uploading the PCR test result is not mandatory during the electronic pre-registration process, travelers who are required to have pre-travel PCR test, must present the original copy of the PCR test result to the airlines in order to allow them to board the plane, or at the country's ports (land and sea). Your pre-travel online registration will help accelerate your passage and clearance at the port of arrival for a better arrival experience in Qatar.

9. While pre-travel registration remains optional for citizens and residents of Qatar, the Ministry of Public Health recommends that all individuals entering Qatar pre-register to ensure the best experience upon arrival particularly those traveling with unvaccinated family members who are required to complete home quarantine as they are required to sign an Undertaking which is readily available in the Ehteraz online registration.
10. The Ministry of Public Health has the right to conduct random COVID-19 testing (Rapid Antigen Test or PCR) of travelers upon arrival in Qatar through its air, land and sea ports.
11. Travelers should download the Ehteraz mobile application and activate it on their mobile phones using a local or international SIM card.
12. All passengers must sign an Undertaking and **Acknowledgement Form** before arriving in Qatar. The form is available on the Ministry of Public Health website, pre-registration platform website www.ehteraz.gov.qa and airline online booking form. Citizens and residents are exempted from this requirement on the condition that they are fully vaccinated inside the State of Qatar arriving from one of the countries to which Standard Health Measure apply.
13. Self-testing of Rapid Antigen is not applicable to travelers. Post-travel/upon arrival Rapid Antigen Testing must be conducted at an authorized healthcare facility: (Please see our post-travel testing policy for detailed instructions) as follows:
 - a. Citizens and Residents: at any public (PHCC) or Private clinic.
 - b. GCC Citizens (non-resident) and Visitors: anyone subject to home quarantine with first-degree relatives shall have their testing done at any authorized private clinics; for unvaccinated children below 12 yrs old who are accompanied by parent/s exempted from quarantine, testing will be at the port of entry (airport, land, sea).
 - c. Travelers who are subject to hotel quarantine will have their testing done at the hotel.
14. Travelers who are required to complete quarantine in a hotel quarantine facility must book a Welcome-Home quarantine package through Discover Qatar's website <https://www.discoverqatar.qa/welcome-home/>.
15. In the case of home quarantine, accommodation conditions must be appropriate, and if the property does not comply with the conditions mentioned in the undertaking, the traveler must book the hotel quarantine package through Discover Qatar's website before travelling to Qatar.
16. Travelers arriving in Qatar should go to the COVID-19 test clinic at the entry port in case of any COVID-19-related symptoms and take the necessary isolation measures.
17. Travelers should not go to work or mix with others until the Rapid Antigen Test result is out.
18. For unvaccinated travelers, their health status in the Ehteraz app will be Yellow because they are under quarantine (please review the quarantine policy for detailed instructions).
19. Travelers should, on regular basis, check the MoPH Travel and Return Policy for up-to-date detailed guidance according to the country classification and health and safety measures.
20. Mekhaines quarantine period shall remain at 7 days.

Group 1: Citizens and Residents of Qatar

A- Qatar Citizens

Unvaccinated / Non-Immune	No entry		

Ehteraz Mobile Application Policy:

- Passengers arriving in Qatar must download and activate the Ehteraz app on their mobile devices upon arrival at Qatar's entry ports. To do so, the traveler must have the following:
 - SIM card from one of Qatar's service providers (Ooredoo or Vodafone) or an international SIM card.
 - Mobile internet connection.

3. The smartphone should support Android 6, newer versions or IOS 13.5 and later versions.
 4. Download and install the app on the mobile phone either via Google Play, Apple App Store or from any online search engines.
 5. SIM cards and smartphones are available for purchase at Hamad International Airport and Abu Samra border crossing if the passenger does not own them before arrival.
- Diplomats, administrative card holders and VIP visitors arriving on official state visits are excluded from this measure.
 - The Health Status on the Ehteraz app will remain yellow throughout the quarantine period, until the result of the COVID-19 test comes out negative in accordance with the above quarantine policy.
 - The Health Status on the Ehteraz mobile app for fully vaccinated persons in Qatar will remain green with a golden frame to indicate that they are excluded from quarantine if the result of the PCR test is negative and that they have completed 14 days from the date of the prescribed doses of the vaccine.
 - The Health Status for citizens and residents who have received the vaccine outside Qatar will remain green without a golden frame until their vaccine data is updated in the system.
 - The Health Status on the Ehteraz app for visitors who have received the vaccine outside Qatar will remain green without a golden frame until their vaccine data is updated in the system.

- unmarried partners of residents of Switzerland. They must have a written invitation from the residents in Switzerland and present proof of their relationship;
- passengers with a COVID-19 vaccination certificate showing that they were fully vaccinated at most 270 days before arrival. Vaccines accepted are AstraZeneca (Vaxzevria), Covaxin, Covishield, Janssen, Moderna (Spikevax), Novavax, Pfizer-BioNTech (Comirnaty), Sinopharm and Sinovac. More details can be found at <https://tinyurl.com/hyk4cbj7> ;
- unvaccinated passengers younger than 18 years if they are traveling with their fully vaccinated parents/guardians;
- merchant seamen;
- military personnel with a letter issued by the Federal Department of Foreign Affairs of Switzerland or the Federal Department of Defense of Switzerland.

TANZANIA – published 27.12.2021 (Source CM/Tanzania)

1. All travelers including Tanzanians, returning residents and members of the crew1 /layovers are required to truthfully fill in an online Traveler's Health Surveillance Form available at <https://afyamsafiri.moh.go.tz/> for Tanzania mainland and <https://healthtravelnz.mohz.go.tz> for Zanzibar within 24 hours before arrival to URT`.
2. Filling of Traveler's Health Surveillance Form is a mandatory requirement before boarding to URT and there shall be a penalty to conveyances for noncompliance.
3. All travelers including Tanzanians and returning residents will be required to present a negative COVID 19 test certificate with QR code for verification upon arrival. The only accepted test is Real Time Reverse Transcription Polymerase Chain Reaction (RT-PCR) testing or Nucleic Acid Amplification Tests (NAATs) done at a nationally accredited/approved laboratory using sample tested within 96 hours before arrival to URT. Please note, negative COVID 19 test certificate upon arrival is mandatory, penalty shall be imposed to non-compliant conveyances while travelers without a negative COVID 19 test certificate upon arrival shall be denied entry and repatriated at conveyance cost.
4. All travelers, whether foreigners, Tanzanians or returning residents arriving from countries experiencing variants of concern/variants of interest, highest number of COVID 19 cases based on WHO epidemiological updates or those who have travelled through those countries in the last 14 days regardless of the routes taken shall be subjected to Rapid Antigen Tests at Points of Entry at their own cost. Cost for COVID 19 Rapid Antigen Test shall be 10 USD or TZS 23,000 of which is non-refundable and testing fees applies to travelers arriving in Tanzania Mainland by Air or Marine Vessels. For Zanzibar the cost for Rapid Antigen Test shall be 25 USD or equivalent to TZS. 58,000. Also, Travelers entering URT through Zanzibar having proof of fully vaccinated for COVID 19 using vaccine accepted by Revolutionary Government of Zanzibar will be exempted from Rapid Antigen Test. The updated list of countries for Rapid Antigen Test and accepted COVID 19 vaccines (Zanzibar) are available at 1 means persons on board a conveyance who are not passengers (source IHR, 2005 3rd Edition) <https://www.moh.go.tz> and <https://healthtravelnz.mohz.go.tz> website or at Points of Entry Foreign travelers and residents arrived through Zanzibar from COVID 19 high risk countries who wish to visit Tanzania mainland within 14 days from the date of arrival will be required to present a negative Rapid Antigen Test certificate obtained during entry, otherwise they will be subjected to Rapid Antigen Test at Points of Entry.
5. All asymptomatic travelers with positive Rapid Antigen Test at the Points of Entry shall be subjected to mandatory quarantine at their own cost at designated places under strict surveillance procedures until they test negative using RT PCR or otherwise evaluated by public health experts as non-infectious. The symptomatic positive Rapid Antigen travelers will be isolated for treatment at designated health facilities until they become asymptomatic and will be transferred to designated places for quarantine until tested negative using RT PCR. The list of quarantine places can be found at www.moh.go.tz
6. Travelers who were infected and recovered from COVID 19 shall be required to submit a proof of recovering from the disease obtained from Authorized Medical personnel upon arrival to Tanzania.
7. Travelers to Tanzania Mainland are advised to pay for COVID 19 Rapid Antigen Test online to avoid unnecessary queue upon arrival through an automatically generated control number obtained after filling the

online Traveler's Health Surveillance Form (afyamsafiri.moh.go.tz) and for Zanzibar through <https://zanzibarcovidtesting.co.tz>

8. Children aged 5 years and below, Travelers in transit, Aircraft crew are exempted from both RT PCR certificate and COVID 19 Rapid Antigen Test.

9. All arriving conveyances must provide in advance passenger information so as to allow the Authorities at the Points of Entry to scrutinize the manifest for identification of possible high risk passengers and submit duly filled conveyance health declaration forms (Health Part of Aircraft General Declaration, Maritime Health Declaration and Ground Transport/Vehicles Health Declaration Form).

10. Arriving conveyances will be subjected to decontamination at Points of Entry where necessary.

11. All departing travelers are advised to seek information prior to departure from travel agent regarding COVID 19 requirements of their country of destination or conveyance to be used. However, the following requirement applies to specific destinations as follows;

a) Travelers to Dubai Airport or transit through Dubai Airport are required to possess a valid RT - PCR obtained within 48 hours from the time of collecting the sample and Rapid PCR (NAAT) performed with six (6) hours of departure.

b) Travelers to Republic of India, Republic of Rwanda, Democratic Republic of Congo and part of Europe are required in addition to a valid RT - PCR certificates specified by country of their destination to perform a COVID-19 Rapid Antigen Test prior to departure

- passengers with a letter of invitation or other official document, issued by the USA, by other government or by the United Nations, traveling on duty;
- nationals of Afghanistan, Algeria, Angola, Armenia, Benin, Burkina Faso, Burundi, Cameroon, Central African Rep., Chad, Congo, Congo (Dem. Rep.), Cote d'Ivoire, Djibouti, Egypt, Ethiopia, Gabon, Gambia, Ghana, Guinea, Guinea-Bissau, Haiti, Iraq, Kenya, Kiribati, Liberia, Libya, Madagascar, Malawi, Mali, Mozambique, Myanmar, Namibia, Nicaragua, Niger, Nigeria, Papua New Guinea, Senegal, Sierra Leone, Solomon Isl., Somalia, South

Sudan, Syria, Tanzania, Togo, Uganda, Vanuatu, Yemen and Zambia, with a visa issued by the USA, excluding B -1 and B -2 visas;

- members of the U.S. Armed Forces, their spouses, and children younger than 18 years;
- merchant seamen with one of the following visas: C, D, C1/D, B1, H or L.

- More details can be found at Requirement for Proof of COVID-19 Vaccination for Air Passengers | CDC

2. Passengers entering or transiting through the USA must have a negative COVID-19 test taken at most 1 day before departure from the first embarkation point. Tests accepted are: antigen, NAAT, RT-LAMP, RT-PCR or TMA.

- This does not apply to:

- passengers younger than 2 years;
- US military personnel;
- passengers with a positive COVID-19 test taken at most 90 days before departure from the first embarkation point; and
- a letter issued by a health authority stating that the passenger has been cleared for travel;
- until 1 March 2022, nationals of USA and their family members arriving from Ukraine.

3. Passengers must complete an attestation form before departure. The form can be found at <https://tinyurl.com/f39bu7dt>

- This does not apply to passengers younger than 2 years.

4. Passengers are subject to COVID-19 measures set by the state/territory of their final destination. More information can be found at www.cdc.gov/publichealthgateway/healthdirectories/healthdepartments.html

5. DV visas issued in September 2020 that expired are accepted for entry.

6. Nationals of the U.S.A. are allowed to enter with an expired passport.

-This does not apply to emergency passports which must be valid on arrival.

7. Passengers could be subject to self-isolation or self-quarantine.

- This does not apply to:

- passengers with a COVID-19 recovery certificate proving recovery in the past 90 days;
- passengers with a COVID-19 vaccination certificate showing that they were fully vaccinated at least 15 days (day of vaccination + 14 days) before arrival. Passenger details (e.g., name and date of birth) in the certificate must match those stated in the passport/travel document.

Vaccines accepted are:

- AstraZeneca (SK Bioscience), AstraZeneca (Vaxzevria), Covaxin, Covishield, Covovax, Janssen, Moderna (Spikevax), Nuvaxovid (Novavax), Pfizer-BioNTech (Comirnaty), Sinopharm (BIBP) and Sinovac. A combination of these vaccines is accepted if administered at least 17 days apart. More details can be found at www.cdc.gov/coronavirus/2019-ncov/travelers/international-travel-during-covid19.html
