Travel Advisory on COVID-19 coronavirus outbreak

Dated 31 Aug 2022(Revision 0)

Prepared in accordance with IATA News daily updates and based on travel advisories that we are aware of published on Aug 31, 2022.

You are advised to monitor and check official websites of World Health Organization, relevant authorities and local government agencies for the latest developments on COVID-19 coronavirus. Do adjust your travel plans based on the latest information provided.

AUSTRALIA --- published 06.07.2022
COVID-19 entry regulations lifted on 6 July 2022.

BANGLADESH - published 25.07.2022
1. Passengers must have a negative COVID-19 RT-PCR test taken at most 72 hours before departure from the first embarkation point.
- This does not apply to:
- passengers younger than 12 years;
- passengers with a COVID-19 vaccination certificate showing that they were fully vaccinated with AstraZeneca (SK Bioscience), AstraZeneca (Vaxzevria), Covaxin, Covishield, Covovax, Janssen, Moderna (Spikevax), Nuvaxovid (Novavax), Pfizer-BioNTech (Comirnaty), Sinopharm or Sinovac.
2. Passengers entering or transiting through Bangladesh must complete a Health Declaration Form at most 3 days before departure. The form can be found at http://healthdeclaration.dghs.gov.bd . This will generate a QR code which must be presented before boarding and upon arrival.
- This does not apply to passengers younger than 12 years.

CANADA - published 03.08.2022
1. Passengers and airline crew must have a COVID-19 vaccination certificate uploaded in ArriveCAN showing that they were fully vaccinated at least 15 days (day of vaccination plus 14 days) before arrival. The certificate must be in English, French or accompanied by a certified English or French translation. Vaccines accepted are: AstraZeneca (Covishield), AstraZeneca (SK Bioscience), AstraZeneca (Vaxzevria), Covaxin, Covovax, Janssen, Medicago Covifenz, Moderna (Spikevax), Nuvaxovid (Novavax), Pfizer-BioNTech (Comirnaty), Sinopharm or Sinovac. A combination of vaccines is accepted.
- This does not apply to:
- nationals of Canada;
- permanent residents of Canada;
- persons registered under Canada's Indian Act with the Certificate of Indian Status (CIS) or the Secure Certificate of Indian Status (SCIS);
- passengers with an authorization from the Public Health Agency of Canada (PHAC) for compassionate entry;
- passengers with a Canadian Refugee Travel Document or a Single Journey Document for Resettlement to Canada;
- passengers younger than 18 years traveling with their vaccinated parents/guardians;
- passengers with an application for permanent residence. They must have a written notice issued under the Immigration and Refugee Protection Act;
- nationals of Ukraine and their immediate family members with a Canadian Temporary Resident Permit or a Canadian Temporary Resident Visa.

More exemptions can be found at https://tinyurl.com/s4tbrc8

2. Passengers must have:

- a negative molecular COVID-19 test taken outside of Canada at most 72 hours before departure of the last direct flight to Canada. Tests accepted are: CRISPR, Ct, detection of the E gene, detection of the N gene, detection of Orf1a/b, detection of the RdRp gene, detection of the S gene, ddPCR, isothermal amplification, LamPORE, NAAT, NAT, NGS, PCR, qPCR, RNA, RT-LAMP, RT-PCR, sequencing and WGS; or

- a negative COVID-19 antigen test taken at most one day before departure of the last direct flight to Canada. More details can be found at https://tinyurl.com/uuf5nntc

- This does not apply to:

- passengers younger than 5 years;

- passengers between 5 and 11 years traveling with their fully vaccinated parents/guardians;

- passengers with a COVID-19 vaccination certificate showing that they were fully vaccinated at least 15 days (day of vaccination plus 14 days) before arrival. The certificate must be in English, French or accompanied by a certified English or French translation. Vaccines accepted are: AstraZeneca (Covishield), AstraZeneca (SK Bioscience), AstraZeneca (Vaxzevria), Covaxin, Covovax, Janssen, Medicago Covifenz, Moderna (Spikevax), Nuvaxovid (Novavax), Pfizer-BioNTech (Comirnaty), Sinopharm or Sinovac. A combination of vaccines is accepted;

- passengers with a positive molecular COVID-19 test taken at least 10 days and at most 180 days before departure of the last direct flight to Canada. Tests accepted are: CRISPR, Ct, detection of the E gene, detection of the N gene, detection of Orf1a/b, detection of the RdRp gene, detection of the S gene, ddPCR, isothermal amplification, LamPORE, NAAT, NAT, NGS, PCR, qPCR, RNA, RT-LAMP, RT-PCR, sequencing and WGS;

More exemption can be found via https://travel.gc.ca/travel-covid/travel-restrictions/exemptions

3. Passengers and airline crew must submit their information electronically, at most 72 hours before arrival, through the ArriveCAN app or the website https://www.canada.ca/en/public-health/services/diseases/coronavirus-disease-covid-19/arrivecan.html. Passengers must present an ArriveCAN receipt before boarding.

- This does not apply to the following passengers. If they do not meet this requirement they could be subject to a fine:

- nationals of Canada;

- permanent residents of Canada;

- persons registered under Canada's Indian Act with the Certificate of Indian Status (CIS) or the Secure Certificate of Indian Status (SCIS);

- passengers with an authorization from the Public Health Agency of Canada (PHAC) for compassionate entry;

- passengers with a Canadian Refugee Travel Document or a Single Journey Document for Resettlement to Canada;

- passengers with an application for permanent residence. They must have a written notice issued under the Immigration and Refugee Protection Act;

- nationals of Ukraine and their immediate family members with a Canadian Temporary Resident Permit or a Canadian Temporary Resident Visa.

More details can be found at https://www.canada.ca/en/border-services-agency/services/arrivecan.html#a3

4. Passenger could be subject to a COVID-19 molecular test upon arrival. Details can be found at https://tinyurl.com/4cu5k5he and https://tinyurl.com/2p8yne6z .

5. Passengers could be subject to quarantine for 14 days. Details can be found at https://travel.gc.ca/travel-covid/travel-restrictions/flying-canada-checklist

- This does not apply to:

- passengers younger than 12 years traveling with their fully vaccinated parents/guardians;

- passengers with a COVID-19 vaccination certificate showing that they were fully vaccinated at least 15 days (day of vaccination plus 14 days) before arrival. The certificate must be in English or French or be

accompanied by a certified translation to English or French.
- Vaccines accepted are: AstraZeneca (Covishield), AstraZeneca (SK Bioscience), AstraZeneca (Vaxzevria), Covaxin, Covovax, Janssen, Medicago Covifenz, Moderna (Spikevax), Nuvaxovid (Novavax), Pfizer-BioNTech (Comirnaty), Sinopharm or Sinovac. A combination of vaccines is accepted.
- More details can be found at https://travel.gc.ca/travel-covid/travel-restrictions/covid-vaccinated-travellers-entering-canada

THE MAINLAND OF CHINA - published 18.08.2022
1. Entry by foreign nationals holding a visa is suspended.
- This does not apply to:

OMAN --- published 23.05.2022
COVID-19 entry regulations lifted on 22 May 2022.

PAKISTAN - published 15.07.2022
1. Passengers must have a COVID-19 vaccination certificate showing that they were fully vaccinated.
- This does not apply to:
- nationals of Pakistan younger than 12 years;
- passengers younger than 18 years who are not nationals of Pakistan;
- passengers who departed Pakistan before 1 October 2021.
2. Passengers and airline crew must have a negative COVID-19 PCR test taken at most 72 hours before departure from the first embarkation point. The test certificate must be in Arabic or English.
- This does not apply to:
- passengers younger than 12 years;
- passengers with a COVID-19 vaccination certificate showing that they were fully vaccinated.
3. Passengers must download the Pass Track App before boarding and submit their personal details or submit their details at https://passtrack.nitb.gov.pk/ and have a printed confirmation.
- This does not apply to passengers younger than 12 years.

PHILIPPINES - published 01.08.2022
1. Passengers must have:
- a negative COVID-19 RT-PCR test taken at most 48 hours before departure from the first embarkation point; or
- a negative COVID-19 antigen test taken at most 24 hours before departure from the first embarkation point.
- This does not apply to:
- passengers younger than 3 years;
- passengers with a COVID-19 vaccination certificate showing that they were fully vaccinated and received a booster dose. This exemption also applies to their accompanying minors under 12 years. Vaccines accepted are: AstraZeneca (SK Bioscience), AstraZeneca (Vaxzevria), Convidecia (CanSinoBio), Covishield, Covaxin, Covovax, Janssen, Moderna (Spikevax), Nuvaxovid (Novavax), Pfizer-BioNTech (Comirnaty), Sinopharm and Sinovac;
- passengers between 12 years and 17 years with a COVID-19 vaccination certificate showing that they were fully vaccinated at least 15 days before departure from the first embarkation point. Vaccines accepted are: AstraZeneca (SK Bioscience), AstraZeneca (Vaxzevria), Convidecia (CanSinoBio), Covishield, Covaxin, Covovax, Janssen, Moderna (Spikevax), Nuvaxovid (Novavax), Pfizer-BioNTech (Comirnaty), Sinopharm and Sinovac;
- nationals of the Philippines with:
- a positive COVID-19 RT-PCR test taken at most 48 hours before departure from the first embarkation point; and
- a positive COVID-19 RT-PCR test taken at least 10 days and at most 30 days before departure from the first embarkation point; and
- a medical certificate specifying that they do not have COVID-19 symptoms and are not contagious.
2. Passengers must have a COVID-19 vaccination certificate showing that they were fully vaccinated at least 15 days before departure from the first embarkation point. Vaccines accepted are: AstraZeneca (SK Bioscience), AstraZeneca (Vaxzevria), Convidecia (CanSinoBio), Covishield, Covaxin, Covovax, Janssen, Moderna (Spikevax), Nuvaxovid (Novavax), Pfizer-BioNTech (Comirnaty), Sinopharm and Sinovac.

- This does not apply to:
- passengers younger than 12 years accompanied by a fully vaccinated parent/guardian;
- nationals of the Philippines.
3. Passengers must present the 'One Health Pass Registration' at time of check-in from the first international leg. The pass can be found at found at https://onehealthpass.com.ph/e-HDC/ . The registration will generate a bar code or a QR code which must be presented upon arrival.
4. Nationals of the Philippines without a COVID-19 vaccination certificate showing that they were fully vaccinated, are subject to quarantine for 14 days.
- This does not apply to passengers younger than 12 years accompanied by their fully vaccinated parent or guardian.
- This does not apply to passengers with a 9(e) visa.
5. Unaccompanied nationals of the Philippines younger than 18 years are subject to a test upon arrival and quarantine.
- This does not apply to:
- fully vaccinated passengers who received a booster dose;
- fully vaccinated passengers with a negative COVID-19 RT-PCR test taken at most 48 hours before departure from the first embarkation point;
- fully vaccinated passengers with a negative COVID-19 antigen test taken at most 24 hours before departure from the first embarkation point;
- fully vaccinated passengers with prior coordination by the airline with the Bureau of Quarantine (BOQ);
- passengers between 4 and 11 years with a negative COVID-19 RT-PCR test taken at most 48 hours before departure from the first embarkation point and prior coordination by the airline with the Bureau of Quarantine (BOQ);
- passengers between 4 and 11 years with a negative COVID-19 antigen test taken at most 24 hours before departure from the first embarkation point and prior coordination by the airline with the Bureau of Quarantine (BOQ).
6. Unaccompanied foreign passengers younger than 18 years are subject to a test upon arrival and quarantine. They must have an authorization letter from the parents/guardians for COVID-19 test and quarantine. The letter must indicate the name and address of the guardian in the Philippines who will quarantine with the minor.
- This does not apply to:
- fully vaccinated passengers who received a booster dose;
- fully vaccinated passengers with a negative COVID-19 RT-PCR test taken at most 48 hours before departure from the first embarkation point;
- fully vaccinated passengers with a negative COVID-19 antigen test taken at most 24 hours before departure from the first embarkation point;
- fully vaccinated passengers between 5 and 14 years with an endorsement letter from their respective foreign service office and airline or from the Department of Foreign Affairs (DFA);
- passengers younger than 4 years with an endorsement letter from a designated foreign embassy and airline or from the Department of Foreign Affairs (DFA).

8. Visa exemptions have been reinstated.
9. Suspension of all visa on arrival facilities.

QATAR - **published 16.03.2022**

Red list countries https://covid19.moph.gov.qa/EN/Documents/PDFs/RED-LISTED-COUNTRIES.pdf

Immunity Status:

• **Immune-Vaccinated:** Anyone who received any of the following COVID-19 vaccine approved/recognized by the Ministry of Public Health within its immunity validity period:

o Valid for nine (9) months from fourteen (14) days after 2nd dose vaccination of Pfizer, Moderna, Astra Zenica COVID-19 vaccines.
o Valid for twelve (12) months after the booster dose vaccination of Pfizer, Moderna, Astra Zenica COVID-19 vaccines.
o Valid for nine (9) months from 2 weeks after the 1st dose of Jansen & Jansen COVID-19 vaccine.
o Valid for twelve (12) months from seven (7) days of receiving the booster dose of Jansen & Jansen COVID-19 vaccine.
o Valid for six (6) months from fourteen (14) days after the 2nd dose or booster dose of conditionally approved COVID-19 vaccines, where a *positive* Serology on Antibody Test lab result is required and is valid for 30 days from testing; If the traveler is unable to take a Serology Antibody test in the country of origin or if the Antibody test result appear negative, the traveler must undergo relevant quarantine for 5 days; Those who received booster dose using MOPH approved vaccines immune status is extended to twelve (12) months from fourteen (14) days after the booster dose and Serology Antibody test is no longer required.

- **Immune-Recovered:** Anyone who had a medically confirmed COVID-19 infection acquired either locally or overseas is considered to have immune status valid for twelve (12) months from the date of the infection. There should be an official and verifiable laboratory test result as evidence of the past infection.
- **Unvaccinated / Non-immune:** Anyone who does not meet any of the above criteria.

List of Approved and Conditionally Approved Vaccines by the Ministry of Public Health:

Approved Vaccines	Conditionally Approved vaccines*
• **Pfizer / BioNTech (Comirnaty)**	• Sinopharm
• **Moderna (SpikeVax)**	• Sinovac
• **AstraZeneca (Covishield / Oxford / Vaxzevria)**	• Sputnik V
• **Jansen / Johnson & Johnson (only one dose)**	• Covaxin

Travelers who are vaccinated outside Qatar are required to submit the original vaccine certificate and any other supporting documents –in Arabic or English language– as a proof that they have obtained the vaccine and should at least include the following information:
o   The name of the traveler must be identical to that on the passport.
o   Doses and dates of vaccine given (one dose for Jansen vaccine and two doses for other vaccines).
o   Type/name of vaccine.
o   The serial number of the vaccine batch and QR code (if available).

General policy:

1. Based on COVID-19 epidemiology in different countries and their local health risk indicators, Qatar has developed specific health and safety measures for travelers coming to Qatar – *Standard Health Measures and Red Health Measures*.
2. Citizens and residents are free to travel abroad at any time provided that the Travel and Return Policy is adhered to when returning to Qatar.

3. The Ministry of Public Health advises citizens and residents to look up and comply with COVID-19 health measures currently in place in the destination country.
4. Travelers are responsible for keeping up to date with changes to the Travel and Return Policy through official sources before planning to travel to Qatar.
5. Travelers must comply with Qatar's COVID-19 procedures at all time to reduce the spread of COVID-19.
6. Travelers who are required to have a PCR lab result before traveling to Qatar must have it at a medical center authorized by the health authorities in the country of departure. A negative test result is required and must be obtained no more than 48 hours before the time of departure from the country of origin. (Please see the pre-travel test rules for detailed guidance.)
7. Unvaccinated children **below the age of 12 years** travelling with immune or recovered parent/s will follow the same rules that apply to their parent/s and are not required to have a pre-travel PCR test but only post-arrival test (Rapid Antigen Test) at the following locations:

   a. Citizens and Residents: at any public/private clinic within 24 hours of arrival in Qatar and parent/s must sign an Undertaking form.
   b. GCC Citizens (non-resident) and Visitors: if parent/s are exempted from quarantine, testing for children will be at the port of entry (airport, land, sea) upon arrival in Qatar; if parent/s are subject to hotel quarantine, testing will be at the quarantine hotel.

8. Documentary requirements for non-residents of Qatar:
   a) For GCC nationals and GCC residents who meets the immunity criteria, the following COVID health app used in any of the GCC countries shall be honored and accepted in Qatar in lieu of online pre-travel registration on condition that it reflects Immune status:

Bahrain	BeAware Bahrain
Kingdom of Saudi Arabia	Tawakkalna
Kuwait	Shlonik
Oman	Tarassud
United Arab Emirates	Al Hosn

9.
   b) COVPass health app for EU nationals and EU residents shall be honored and accepted in Qatar in lieu of online registration on condition that they meet the immunity criteria and reflected in the COVPass app.

10. Travelers who hold any of the above health apps shall be exempted from online registration and are required to proceed to any authorized private clinics for Rapid Antigen Test within 24hours of their arrival in Qatar. Pre-travel RT-PCR test is required for immune and non-immune travelers coming from the countries under Red Health Measures. Meanwhile, non-immune travelers must register on the pre-travel registration platform and submit their pre-travel PCR test.

11. Travelers of the above two categories are reminded that it is mandatory to download and activate Qatar's Ehteraz mobile health app as soon as they arrive.

c) Non-residents of Qatar who are non-immune/unvaccinated OR who does not fall in the above 2 categories must register via the pre-travel registration system for people entering the State of Qatar on www.ehteraz.gov.qa website and upload all relevant official documents, where applicable, such as vaccination certificates, evidence of previous COVID-19 infection, serology antibody test results (for conditional vaccines), and PCR lab result at least 3 days before arrival. Although uploading the PCR test result is not mandatory during the electronic pre-registration process, travelers who are required to have pre-travel PCR test, must present the original copy of the PCR test result to the airlines in order to allow them to board the plane, or at the country's ports (land and sea). Your pre-travel online registration will help accelerate your passage and clearance at the port of arrival for a better arrival experience in Qatar.

12. While pre-travel registration remains optional for citizens and residents of Qatar, the Ministry of Public Health recommends that all individuals entering Qatar pre-register to ensure the best experience upon arrival particularly those traveling with unvaccinated family members who are required to complete home quarantine as they are required to sign an Undertaking which is readily available in the Ehteraz online registration.

13. The Ministry of Public Health has the right to conduct random COVID-19 testing (Rapid Antigen Test or PCR) of travelers upon arrival in Qatar through its air, land and sea ports.

14. Travelers must download the Ehteraz mobile application and activate it on their mobile phones using a local or international SIM card.

15. All passengers must sign an Undertaking and **Acknowledgement Form** before arriving in Qatar. The form is available on the Ministry of Public Health website, pre-registration platform website www.ehteraz.gov.qaand airline online booking form. Citizens and residents are exempted from this requirement on the condition that they are fully vaccinated inside the State of Qatar arriving from one of the countries to which Standard Health Measure apply.

16. Self-testing of Rapid Antigen is not applicable to travelers. Post-travel/upon arrival Rapid Antigen Testing must be conducted at an authorized healthcare facility: (Please see our post-travel testing policy for detailed instructions) as follows:

    a. Citizens and Residents: at any public (PHCC) or Private clinic.
    b. GCC Citizens (non-resident) and Visitors: anyone subject to home quarantine with first-degree relatives shall have their testing done at any authorized private clinics; for unvaccinated children below 12 yrs old who are accompanied by parent/s exempted from quarantine, testing will be at the port of entry (airport, land, sea).
    c. Travelers who are subject to hotel quarantine will have their testing done at the hotel.

17. Travelers who are required to complete quarantine in a hotel quarantine facility must book a Welcome-Home quarantine package through Discover Qatar's website https://www.discoverqatar.qa/welcome-home/.

18. In the case of home quarantine, accommodation conditions must be appropriate, and if the property does not comply with the conditions mentioned in the undertaking, the traveler must book the hotel quarantine package through Discover Qatar's website before travelling to Qatar.

19. Travelers arriving in Qatar should go to the COVID-19 test clinic at the entry port in case of any COVID-19-related symptoms and take the necessary isolation measures.

20. Travelers should not go to work or mix with others until the Rapid Antigen Test result is out.

21. For unvaccinated travelers, their health status in the Ehteraz app will be Yellow because they are under quarantine (please review the quarantine policy for detailed instructions).

22. Travelers should, on regular basis, check the MoPH Travel and Return Policy for up-to-date detailed guidance according to the country classification and health and safety measures.

23. Mekhaines quarantine period shall remain at 7 days for non-immune/unvaccinated.

Group 1: Citizens and Residents of Qatar

A- Qatar Citizens

- Details must be informed to area MOH on day 1 of arrival.

Airline Crew

General Measures & Procedures (Mandatory to All Crew)

- All Crew who have been vaccinated must carry Original Vaccination Certificate/Card in English. If the Certificate/Card is not in English, a certified English translation must be in possession;
- Crew Members if in Quarantine are to adhere to the public health measures of the Ministry of Health protocols in force at the time;
- Airlines to take measures to monitor and supervise the adherence of crew with regards to
- COVID19 preventive measures;
- Airline crew who has been in immediate close contact with a COVID19 patient shall not be enrolled for duty;
- Airline Crew must submit a completed Health Declaration Form upon Arrival to the Health Counters at the Airport.

Foreign Airline Crew (Operating into Sri Lanka with a Foreign Carrier)

Foreign airline crew members shall adhere to the following guidelines in addition to General Measures.

- It is mandatory for the Foreign Airline Crew Members arriving into Sri Lanka to carry a Negative COVID-19 test result in English language done within 72 hours prior to departure.
- Airlines are permitted to select any hotel of their choice for crew that are fully vaccinated and 14 days have lapsed since the last dose.
- If crew layover for less than 72hrs, and the Unvaccinated Crew are confined to the Hotel Premises, the crew then do not require a PCR Test on arrival (Day 01)
- If layover is 72 hours or more in Sri Lanka, on arrival (Day One) PCR test shall be done and the Unvaccinated Crew Members shall be quarantined at the Hotel until they depart from Sri Lanka.

- After sample collection, for any operational reason the crew member can be released for a return flight without the result of the test

Foreign Airline Crew who have been Fully Vaccinated (Final dose of Vaccine + 14 Days).

- It is mandatory for the foreign airline crew members arriving into Sri Lanka to carry a negative COVID-19 test result in English language done within 72 hours prior to departure;

- If the above-mentioned Test is Negative, they will be released without Day 01/ Arrival PCR Test and quarantine.

- If the Crew Member is staying for longer than 7 days, a PCR test is to be conducted on Day 07.

SWITZERLAND --- published 02.05.2022
COVID-19 entry regulations lifted on 1 May 2022.

TANZANIA - published 02.08.2022
The Revolutionary Government of Zanzibar (RGZ) is updating its Travel Advisory NO. 10 Of March 2022 to version No. 1 1, effective from 02 nd Aug, 2022 to accommodate measures as follows:

1 . All travelers including Tanzanians, returning residents and members of the crewl are required to fill in an online Traveler's Health Surveillance Form available at https://healthtravelznz.mohz.go.tz for Zanzibar within 48 hours before arrival to URT through Zanzibar.

2. Travelers entering Zanzibar including Tanzanians, returning residents and those in transit through land borders who are;

a. Fully vaccinated 2 travelers will be exempted from RT-PCR, Antigen Rapid Test or EDE scan requirements regardless of the flights taken. Travelers will be required to present a valid vaccination certificate with QR code upon arrival. The only accepted vaccines are those approved by WHO and recognized locally as listed at www.mohz.go.tz .

b. Not fully vaccinated/unvaccinated travelers will be required to present a negative COVID 19 RT- PCR or NAATs certificate with QR code obtained within 72 hours before arrival.

c. Not fully vaccinated/unvaccinated and have no negative COVID 19 RT- PCR certificate will be dealt as follows;

i. In case of air transport and International marine vessels will be tested for COVID-19 using RT-PCR test at their own cost of 100 USD in Zanzibar, result will be sent while self-isolated.

ii. In case of inland vessels will be tested using Rapid Antigen Test at their own cost of 25 USD followed by RT- PCR for confirmation for positive cases at a cost of 80 USD.

Children aged 12 years and below, crew and transit will be exempted from both RT PCR and Rapid Antigen Tests requirements.

3. For all AAKIA departing travelers through Fly Dubai, Etihad or Emirates who wish to take a conventional PCR test conducted 24 - 48 hours prior to departure, a fee of USD 80 will be payable online via the Zanzibar COVID-19 testing system while those who choose to opt for a Rapid PCR test on the day of departure or in less than 24 hours before departure, a fee of USD 1 10 will be payable. Appointment times are to be fixed online for all Rapid PCR tests for eligibility and registration at the airport COVID19 departure testing booth.

4. All departing travelers are advised to seek information prior to departure from travel agent regarding COVID-19 requirements of their country of destination or conveyance to be used.

TURKEY --- published 02.06.2022
COVID-19 entry regulations lifted on 1 June 2022.

UNITED ARAB EMIRATES - published 24.08.2022
1. Passengers entering Dubai (DXB) or Al Maktoum (DWC) must have:
- a COVID-19 vaccination certificate showing that they were fully vaccinated. Vaccines accepted are: AstraZeneca (Vaxzevria), AstraZeneca (SK Bioscience), CanSinoBIO (Convidecia), Covaxin, Covishield, Covovax, Janssen, Moderna (Spikevax), Nuvaxovid (Novavax), Pfizer-BioNTech (Comirnaty), Sinopharm, Sinovac or Sputnik V. The certificate must have a QR code (except the US COVID-19 Vaccination Record Card); or
- a negative COVID-19 PCR or RT-PCR test taken at most 48 hours before departure of the last direct flight to United Arab Emirates. The test certificate must be in Arabic or English and must be issued by a laboratory accredited by the departure country. The test certificate must also have a QR code; or
- a COVID-19 recovery certificate with a QR code issued at most 1 month before departure.
- This does not apply to:
- nationals of United Arab Emirates and their first-degree family members;
- domestic workers who are traveling with the sponsor or with the first-degree family members of the sponsor;
- passengers younger than 16 years;
- passengers with disabilities.
2. Passengers entering Abu Dhabi (AUH), Fujairah (FJR), Ras Al Khaimah (RKT) or Sharjah (SHJ) must have:
- a COVID-19 vaccination certificate with a QR code showing that they were fully vaccinated. Vaccines accepted are: AstraZeneca (Vaxzevria), AstraZeneca (SK Bioscience), CanSinoBIO (Convidecia), Covaxin, Covishield, Covovax, Janssen, Moderna (Spikevax), Nuvaxovid (Novavax), Pfizer-BioNTech (Comirnaty), Sinopharm, Sinovac or Sputnik V; or
- a printed negative COVID-19 PCR or RT-PCR test taken at most 48 hours before departure of the last direct flight to United Arab Emirates. The test certificate must be in Arabic or English and must be issued by a laboratory accredited by the departure country.
- This does not apply to:
- passengers younger than 16 years;
- passengers with disabilities;
- passengers with a COVID-19 recovery certificate with a QR code issued at most 1 month before departure.
3. A negative COVID-19 RT-PCR test result issued in United Arab Emirates presented upon departure from United Arab Emirates can be accepted for re-entry into Dubai (DXB) or Al Maktoum (DWC) if it meets the specific requirements based on the departure country.
4. Passengers arriving at Dubai (DXB):
- are subject to medical screening, and
- must download and register the COVID-19 DXB Smart App before departure or upon arrival.
5. Passengers traveling as tourists arriving at Dubai (DXB) or Sharjah (SHJ) must have health insurance.
6. Residents of United Arab Emirates with a residence visa returning to Dubai (DXB) or Al Maktoum (DWC) and arriving from Bangladesh, India, Nepal, Pakistan or Sri Lanka must have a GDRFA approval obtained before departure at https://smart.gdrfad.gov.ae/Smart_OTCServicesPortal/ReturnPermitService.aspx .
- This does not apply to:
- first degree family members of nationals of United Arab Emirates and their accompanying domestic workers;
- nationals of Bahrain, Kuwait, Oman, Qatar and Saudi Arabia;
- passengers with a golden residence visa issued by United Arab Emirates.
7. Passengers entering Dubai (DXB) or Al Maktoum (DWC) could be subject to a COVID-19 RT-PCR test upon arrival and quarantine until the test result is ready.
8. Passengers could be subject to quarantine.
- This does not apply to passengers with a COVID-19 vaccination certificate showing that they were fully

vaccinated with AstraZeneca (Vaxzevria), AstraZeneca (SK Bioscience), Covaxin, Covishield, Janssen, Moderna (Spikevax), Pfizer-BioNTech (Comirnaty), Sinopharm, Sinovac or Sputnik V.

9. Nationals of Korea (Rep.) traveling under the Fast Track program must have an 'Isolation Exemption Certificate'.

10. Passengers are not allowed to transit through Abu Dhabi (AUH) for more than 24 hours. Passengers must have a confirmed airside hotel booking if their transit time exceeds 12 hours.

11. Nationals of Nigeria must have a return ticket, and a hotel booking or proof of accommodation address for the period of intended stay.
- This does not apply to passengers with a resident visa.

12. Passengers arriving at Sharjah (SHJ) must download the ALHOSN App.

13. Airline crew without a printed negative COVID-19 PCR test result of a test taken at most 72 hours before departure from the first embarkation point are subject to quarantine until their next flight.

2. **UAE Nationals from all countries arriving to DXB/DWC**

All UAE Nationals are **Not** required to present any PCR or Vaccination certificate before arriving at DXB/DWC. Random PCR Test on arrival only.

An exemption is also extended to the below categories of passengers from the requirement of PCR test or Vaccination or GDRFA pre-approval prior traveling to Dubai, from all destinations.

- The inbound passengers escorting a 1st degree UAE nationals' relative.
- Domestic workers escorting a UAE national sponsor during travel.

Given that they are traveling on the same flight with the relative or sponsor.

3. **Transit passengers**

All transiting passengers are not required to present a COVID 19 PCR test certificate unless it is mandated by their final destination.

4. **Departing from DXB to all countries**

All passengers are required to follow final destination requirements.

Crew Protocol

Please find below the arrivals/transit process which applies to all arriving/transiting crew of airlines (Passenger, Cargo, FBO) operating to Dubai

1. Crew may be checked for symptoms after leaving the aircraft
2. No PCR testing is required unless crew are showing symptoms
3. All crew must quarantine in a hotel or an accommodation provided by their airlines until their next flight. Exception only applies to crew carrying valid vaccination or valid PCR negative report from the departure country or crew originating from DXB

General rules applicable to all crew:
- If symptoms are found, Dubai Health Authority (DHA) will guide further subject to the condition
- If the crew is COVID positive, DHA will advise further actions
- The cost for tests and quarantine shall be paid by the airline or the individual
- The cost for all treatment and isolation for any crew identified as COVID positive is the Airline's responsibility
- Random PCR checks can be conducted by the authorities at any time. This is applicable to crew from all destinations

UNITED KINGDOM - published 20.03.2022
COVID-19 entry regulations lifted on 17 March 2022

USA - published 29.06.2022

1. Passengers entering or transiting through the USA must have a COVID-19 vaccination certificate showing that they were fully vaccinated at least 15 days (day of vaccination + 14 days) before arrival. Passenger details (e.g., name and date of birth) in the certificate must match those stated in the passport/travel document. Vaccines accepted are:

- AstraZeneca (SK Bioscience), AstraZeneca (Vaxzevria), CanSinoBIO (Convidecia), Covaxin, Covishield, Covovax, Janssen, Moderna (Spikevax), Nuvaxovid (Novavax), Pfizer-BioNTech (Comirnaty), Sinopharm (BIBP) and Sinovac. A combination of these vaccines is accepted if administered at least 17 days apart. More details can be found at www.cdc.gov/coronavirus/2019-ncov/travelers/international-travel-during-covid19.html

This does not apply to:
- nationals of the USA;
- residents of the USA;
- passengers younger than 18;
- passengers with an immigrant visa;
- passengers with the following visas: A-1, A-2, C-2, C-3 (as a foreign government official or immediate family member of an official), E-1 (as an employee of TECRO or TECO or the employee's immediate family members), G-1, G-2, G-3, G-4, NATO-1 through NATO-4, or NATO-6 (or seeking to enter as a nonimmigrant in one of those NATO classifications);
- passengers with a letter issued by a doctor proving that the passenger is medically unable to receive the vaccine;
- passengers with a letter of invitation or other official document, issued by the USA, by other government or by the United Nations, traveling on duty;
- nationals of Burkina Faso, Burundi, Cameroon, Congo (Dem. Rep.), Eritrea, Haiti, Madagascar, Malawi, Mali, Niger, Nigeria, Papua New Guinea, Senegal, Somalia, South Sudan, Sudan, Syria, Tanzania and Yemen with a visa issued by the USA, excluding B -1 and B -2 visas;
- members of the U.S. Armed Forces, their spouses, and children younger than 18 years;
- merchant seamen with one of the following visas: C, D, C1/D, B1, H or L;
- nationals of Ukraine with an approved Uniting for Ukraine (U4U) authorization.
- More details can be found at https://www.cdc.gov/coronavirus/2019-ncov/travelers/proof-of-vaccination.html .

2. Passengers must complete an attestation form before departure. The form can be found at https://www.cdc.gov/quarantine/order-safe-travel.html .
- This does not apply to:
- nationals and residents of the USA;
- passengers younger than 2 years.

3. Passengers are subject to COVID-19 measures set by the state/territory of their final destination. More information can be found at www.cdc.gov/publichealthgateway/healthdirectories/healthdepartments.html

4. DV visas issued in September 2020 that expired are accepted for entry.

5. Passengers could be subject to self-isolation or self-quarantine.
- This does not apply to:
- passengers with a COVID-19 recovery certificate proving recovery in the past 90 days;
- passengers with a COVID-19 vaccination certificate showing that they were fully vaccinated at least 15 days (day of vaccination + 14 days) before arrival. Passenger details (e.g., name and date of birth) in the certificate must match those stated in the passport/travel document.

Vaccines accepted are:
- AstraZeneca (SK Bioscience), AstraZeneca (Vaxzevria), CanSinoBIO (Convidecia), Covaxin, Covishield, Covovax, Janssen, Moderna (Spikevax), Nuvaxovid (Novavax), Pfizer-BioNTech (Comirnaty), Sinopharm (BIBP) and Sinovac. A combination of these vaccines is accepted if administered at least 17 days apart. More details can be found at www.cdc.gov/coronavirus/2019-ncov/travelers/international-travel-during-covid19.html
