- Unvaccinated passengers with a medical letter providing reasons for COVID-19 vaccine exemption

Notes:

### Vaccination Certificate

- Fully vaccinated means someone who has had complete dose(s) of accredited vaccines according to manufactures' recommendations, at least 14 days from the date of departure
- A mix of vaccines is accepted
- The certificate can be either a hard copy or in digital format

### Face Mask:

- Passengers are highly recommended to wear face mask during flight, except during meal consumption or under emergency situation.

Passengers who fail to produce document proving these requirements are met, will be subject to conduct COVID-19 test at Port Health upon arrival at Bangkok airport. That will slow your arrival process.

For passengers who are required to be accompanied with Health Insurance as mentioned above, the Health Insurance package can be purchased at passenger own cost.
