

Flexibility due to the presence of volcanic ash at Mexico City Airport (AICM)

This document describes the steps to follow in order to apply the flexibility policy to AM plated 139 tickets including AM codeshare, issued **on/before May 20, 2023**.

The below policy is valid from May 20 to 27, 2023, applies for to all family fares (subject to modifications that will be communicated through this same channel).

Affected Itineraries All travel to / from / through:	Traveling date(s) covered by the policy	Deadline to reissue the ticket	Deadline to take the rescheduled flight	IT Code
Ciudad de México, (MEX) Santa Lucia, (NLU)	May 20 - 21, 2023	May 27, 2023	May 27, 2023	3MXLA60741C

Flexibility for passengers:

For all passengers who have tickets to / from / through the city mentioned and issued exclusively on AM 139 ticket stock, the following is authorized, as long as it is requested in the dates mentioned in this document and limited to one change per customer:

- No charges for change of date or fare difference, respecting the same route and paid cabin.
- Route change is allowed without charge. In case there is any difference in the fare between the original ticket and the new ticket, this difference must be collected at the time of re-booking (reissue).
- If the rescheduled travel occurs **after the deadline to take the new flight (May 27, 2023)** and the change is made within the deadline to reissue the ticket of this policy; the change fee will be waived, however a difference in fare may still apply and must be paid at the time of reissue. If the ticket is not reissued within the term of this policy, the ticket is subject to the original conditions of the fare paid

Application:

1. All bookings modified under this policy must be registered with the IT code **3MXLA60741C** in the Tour Code field.
2. The IT code must be entered only in the **tour code** field when reissuing. No other information than the IT code must be present in that field.
3. The identifier “IT” must be entered at the beginning of the Tour Code field (in case your GDS fails to add it automatically), followed by the IT code (e.g. **IT3MXSS00123C**)
4. A wrong, incomplete, or missing IT code in the relevant field will be subject to debit memos.
