

Why Brightsun and trade GDS HELP SHEET

Why Brightsun.....

Since inception of Brightsun, we have always been supporting the trade and developing ways in which the trade can be kept competitive against competition which seems to be arising increasingly from the internet. At Brightsun we have chosen to embrace the internet and below we would like highlight some of these developments which will add benefit to your company:

1.1

BTRES.com

This is a b2b booking tool and allows you to quote any itinerary with the best content for journeys commencing in UK, and INDIA. BTRES.com also has **cheaper content for INTERNAL INDIA routings**. This includes some airlines which are up to 30% off the price available in the UK. There are 24/7 service level on all products purchased ex INDIA will be the maintained as you currently have with UK products. Additionally, your company has the ability to pay in GBP for content purchased in INDIA at the prevailing conversion rate. As you may be aware **SPICEJET and INDIGO** is taking a greater share of the India market. Both these airlines have been integrated in btres.com, and can be sold for your customers.

1.2

BTRES Air Products Guide

Please LOGIN to www.BTRES.com – login BSTEST, password: TEST12. Please obtain OTP from system.support@brightsun.co.in. Then you can check all Brightsun Air products which you not have been aware of. There is a full comparison of seat only, inclusive tour, cluster, corporate, seamen, and cruise and VFR fares available.

1.3

NDC called New Distribution Capability

This is a new IATA standard and is set to replace the way in which travel agents receive content from the airlines. This method of distribution has been developed by the airlines to provide a richer level of content than is possible by GDS at the moment.

Essentially this means that airline like Lufthansa; British Airways currently offer cheaper fares when booked on direct connection (NDC) as opposed to the GDS. **In many cases we have seen British Airways fares to Europe and some long haul itineraries having a saving of up to GBP50 on a return itinerary . The destinations which there is an advantage in fare are (this is ever changing).**

- UK-Europe
- UK - NAS-GCM, PUJ, SJO
- UK - LIM, EZE, GIG,
- UK - HYD, BLR, MAA, ISB, BKK, MRU

British Airways also has cheaper “A” first class to BOSTON and DUBAI which can ONLY be booked by NDC. This content does not exist on the GDS.

Lufthansa group airlines (LH/LX/OS/SN) are approximately GBP30 cheaper over the GDS on a return itinerary when booked with NDC, and some no bag fares are on NDC which are not available on GDS. Brightsun has developed NDC connections on btres.com and your customers can benefit by booking on cheaper content. Once booked this booking resides only of the airline website. By end 2019 all our flight content, GDS and NDC will be available as an API for integration with your websites. Alternately you can choose to incorporate the content within the Brightsun **white label product**.

1.4

ADDITIONAL SUBAGENTS

BTRES.com has the ability to open child accounts. Therefore if you have a number of branches you can control the mark-up to each of those branches as well as keep control of the ticketing through the credit control system

1.5

WHATSAPP & CHAT

We have provided all possible communication facilities – for enhanced connectivity the call centre team have a Whatsapp number 07483 147776, as well as online chat which is all available 24/7 to be able to be able to service any requirement you may have. If you need to chat with a Brightsun Staff there is an Instant messenger facility of BTres.com so you can reach us, copy and paste PNR's etc.

2.1

WHITE LABEL : if you do not have a valid website, our experienced team of developers can create, maintain, a functioning website within 14 days. Our fares loading team, can upload the best content for you so that your customer sees the best prices, and you can control the mark-up on your products. Please contact system.brightsun.co.in. (If you ALREADY have an existing website, Brightsun can assist you to get the get best content to appear to your customers)

2.2

CRUISING : Brightsun is increasingly introducing products which can compete against the transparency of the internet. Cruising has a large profit margin and is a travel products in which the consumers have a high spend. Due to this reason consumers seek the assistance of an expert to be able to compare different cruises and find the correct cruise that needs their needs, as opposed to booking directly on the internet. Brightsun has specialised trained consultants that can assist you to offer cruising to your customers. BTRES.com will have cruise content soon, and will allow you to quote the bestselling cruise itineraries and unbeatable prices to your customers.

2.3

DYNAMIC PACKAGING : In line with increasing more margins for our trade partners , BTRES.com will be enhanced with “dynamic packaging” which will include ITX flight prices along with some of the most competitive hotel pricing with transfers to be able to offer a “single price” holiday. You should remind your customers that a holiday booked as a package is fully covered in case of airline failure of natural disasters. Bookings I which components of the holiday are booked from different bookings do not fall under the ABTA “Packages Directive” and will not compensate if an airline failure occurs.

2.4

ISSUE YOUR OWN TICKET – within btres.com you have the ability to create your own invoice and issue your own ticket for PNR which are created on Amadeus / Galileo, and Worldspan

*. *subject to having the credit facility.

2.5

BTPAYMENT.com For customers who do not have their payment gateway or merchant services, we offer a facility to take payments from customers over Amex, MasterCard, Paypal and Visa. This is a fully secure system, and there are no chargebacks as the system benefits from 3D secure. This payment gateway only displays your company's name, and does not display Brightsun to your customers. Even when customers receive their bills their statement will show BTPAYMENT.com, and not Brightsun. Furthermore you will immediately get a notification, and the payment from your customer will reflect in your BTres.com account

As an example you can open www.btpayment.com and use IBE10017636 and surname "BOOKING".

3.1

GDS with FULL CONTENT If you already have a GDS , you may be aware any airlines now are no allowing their content to be shown to agents who do not have an IATA number. Even if you do hold an IATA number, you may not have the CIP for an airline in which case, you will not be able to see the inventory. If you do not have an existing GDS and are interested please contact system.support@brightsun.co.in

QUOTING FARES and QUEUING PNR's Handbook

We have two options for our Sub Agents either we can load the fares their PCC or our PCC (you could have access the fares with Account code or if you want without Account code as CAT35).

*We have also available our Main /Mirror PCC to price all our content by Jumping in our PCC but you can't make the PNR due to GDPR Policy.

Queue Process in Travelport/Galileo

To queue a booking to Brightsun, you need to use our consolidator pseudo city QMD and queue number 61.

The entry is as below: QEB/QMD/99 If you queue a Booking File to Brightsun and subsequently retrieve it and end the transaction.

We will no longer be able to retrieve it. This is a useful feature if an error has been made when queuing a Booking File.

If you still wish us to be able to retrieve and action the Booking File, you must queue the Booking File again.

As a reminder, a warning header is displayed in a Booking File which is retrieved after it has been queued to a consolidator:

BOOKING FILE QUEUED TO CONSOLIDATOR - RE-QUEUE AT END TRANSACTION.
If one of your branches takes over ownership of a Booking File which is already on a consolidators queue, the Booking File will be removed from the queue.

The warning header above will be displayed to the branch agency upon retrieval, advising that the Booking File must be re-queued at end transaction.

Note: The history of the Booking File will reflect all queuing functions performed even if the Booking File was not seen by the consolidator.

The purpose of this section is to provide clear guidelines about how to login and to check fare in a PCC on Sabre.

We have two options for our Sub Agents either we can load the fares their PCC or our PCC (you could have access the fares with Account code or if you want without Account code as CAT35).

We have also available our Main /Mirror PCC to price all our content by Jumping in our PCC but you can't make the PNR due to GDPR Policy.

Before you attempt to queue a PNR

You must have the keyword "GLSAGT" in your Employee Profile Record (EPR). You must sign in with duty code 9.

When you have completed the PNR, you will need to queue it to us via: 6XTA/37S2 the system will respond with:

37S2 NOT A BRANCH - TO SEND THIS PNR TO 37S2 ENTER QP/YES TO OPEN GLOBAL SECURITY

OR QP/NO AND you then need to enter QP/YES and end the transaction.

The purpose of this section is to provide clear guidelines about how to login and to check fare in a PCC on Worldspan.

We have two options to load the fares either your PCC or our PCC (you could have access with Account code or without Account code as CAT25).

Fare display: : **FQDLONDEL/D12NOV/AAI/R,U*TD**

We have two options to load the fares either your PCC or our PCC (you could have access with Account code or without Account code as CAT25).

You can only display fare: **FQDLONDEL/D12NOV/AAI/R,U*TD** with Account Code and without Account code **FQDLONNYC/D12NOV/AAA/R,U** And To quote a fare enter: **FXP/ R,U *TD** and without account code **FXP/R,U**

If you are an existing Amadeus customer, we can handle bookings using two separate methods.

The quickest, if we do not have Extended Office Security setup, is the following entry that needs to be made in each PNR: **ES/LONU122BS-B** The second method (and our preferred method) is for you to use a new office id that we will setup on your behalf. To do this you need to inform us of your existing office id and we will do the rest with Amadeus. This new office id will be used then for all bookings that you wish Brightsun to issue. As this office id is a Brightsun one you will be able to book any of our fares (including those that are not bookable in sub agent office ids). When this new office id has been setup you will need to jump to it prior to making your booking. To jump to the new office id is **JUM/O-<your new office id>**
